

I'm writing to let you know that I'm outraged that Sinclair Broadcasting is planning to air an anti-Kerry documentary just before the national presidential election. This is an obvious attempt to affect the outcome of the election, and as I understand it, a violation of the law. Getting free access to public airwaves requires Sinclair to serve the public, and this documentary that lies about Kerry's Vietnam record is NOT serving the public interest!

Your job at the FCC is also to serve the public interest, and I really sincerely hope you take that charge seriously. If you do, you'll prevent Sinclair from running this obviously partisan show days before the most critical election of our lifetime!

Thank you.
